ENGINEERS MOORE and CRAWFORD left yesterday for the purpose of examining the Soledad Pass as to its practicability for a railroad route. These gentlemen go out in the employ of the Los Angeles and Independence Railroad Company and it is expected they will be able to report in a week or ten days. It is believed the road between this city and Independence will be shortened about forty miles. If this should prove true it would be a great inducement to the company to construct the road by the Soledad route.

Mercantile Marine---Past and

Present. Before the breaking out of our unfortunate civil war, it will be remembered that our mercantile marine was rapidly gaining the ascendancy among the nations of the earth-not only as tonnage, but the great superiority of our ships as sailers. The seas of the cleansed, and the present venal horde world were whitened with our canvas, and the stars and stripes were borne aloft in every port, by ships that were the admiration, and, at the same time, the envy, of the world-bearing to market the rich and abundant products of our land and bringing back in exchange such commodities as our wants | that convenient member, and for the required. Even the great passenger steamer lines, to Liverpool, to Bremen and to Havre were in our hands and same category with the unfortunate bearing our flag. As an illustration SCHUYLER. of the rising glory of the American mercantile marine, we may be pardoned for referring to an incident which happened during the Crimean war, and which is doubtless within and staring in silence, especially the recollection of many at the pres- among the gentlemen. Now it is alent day. At that time, England being most unbearable to a timid stranger a party to the war, our mercantile like myself to sit in a long hall oppomarine was supreme, and Britania gent and handsome men. I cannot could no longer boast that she ruled keep from glancing at them occasionthe waves. A fleet of American clip- ally, and think how much I would like pers was chartered by France to convey troops to the Crimea. Among they are as immovable as the Sphinx; them were the Great Republic and the they neither talk with each other Challenge (other names not recollected), and the French Government detailed two of her fleetest war steamers to convoy them. For some two or three days after they left port, the direction. But every one knows that clippers, by shortening sail and backing and filling, enabled the war steamers to keep up with them, but, did, however, venture timidly across at last, our seamen growing impatient of restraint, crowded on all sail, shaped their course, and safely landed their dignified array of embodied silence. human freight in the Crimea, amidst the eclat of the assembled armies, three days before the convoys entered Oh, by hastily addressing the accomplished Professor with an invitation to port. In short, our mercantile supremacy was becoming so eminent as to excite the apprehensions and fears of the "mistress of the seas," and not long after this a resolution was introduced in the House of Commons to appoint a committee of eminent business men to "inquire into the matter" and to ascertain "how it is that American ships, paying higher wages to seamen and feeding them better, were able to successfully compete with British ships in the carrying trade of the world?" The labors of this committee were brought to a premature isfies me and relieves me of the possiclose by the breaking out of our civil | ble imputation that I have a personal war; not, however, before they had reached the following conclusions: "That American ships were faster sailers, making three voyages where British ships made but two: that their crews were generally more intelligent and that their modern improvements and appliances for "working ship" -- for reefing and unfurling sail-for receiving and discharging cargo and handling and if your rules and regulations conanchor-they were sailed with much smaller crews." Such was the condition of our mercantile marine before the breaking out of our civil war. This drove the most of it into ordinary or to be sold to foreign powers; and since that time our immense products have been taxed millions by foreign powers for carrying them to market, and our imports by other millions for bringing them to our shores—to say fire several times, but was saved from | tion for Lieutenant-Governor. nothing of the millions paid to foreign bottoms in the greatsteamer passenger lines-all of which might and would have been saved to the country long ere this, if our Government had performed its plain duty, or if we had placed a statesman at its head, instead of a man without a civil record and not much to be proud of as a soldier. This loss of our mercantile marine was probably an unavoidable incident ployed as a herder on Whitney's of the war; but has our Government | ranch; was a native of England, and done all in its power to recover this lost position in the mercantile world? Amidst its clamor for and retention of power, has it ever thought of the

the axe no longer resounds in our forrests, and our great ship-yards are silent as the grave, and shipbuilding has been transferred to the Clyde, to the Thames and the Mersey. Pennsylvania must be conciliated in the interests of the Administration-the New England States on her manufactures-the West on the financial question, and the great corporations on their several and peculiar interests; and amidst this wrangling for office sacrificed, and we are now, after the lapse of nine years, at the mercy of foreign bottoms to carry our great staples to the markets of the world and to bring our imports to our shores -thus sending millions abroad to enrich foreign nations and impoverish

our own country. And this is the ad-

ministration that has the presumption to ask the people for another and third Tammany Ring and is entitled to lease of power! Had statesmen been much credit therefor, but as he will at the head of Government, someprobably have Governor Dix for an thing would have been done long United States. Our Government is opponent he is sure to have a hard ere this time towards recognizing our not insensible to the question, but is former ascendancy on the seas. The people are as active, as energetic, and the Cabinet assert, with one accord enterprising as in days of yore, but | that in the event this cession is made their energies are paralyzed by an incompetent, vacillating and corrupt Government, which overlooks every legitimate function for which it was placed in power, in their shameful scramble for the spoils and retention of office. We have no partizan feeling to subserve in this matter; there is very little difference in the views of honest, patriotic men as to what shall be the policy of the Government, and as to political parties per se, they all have the same set and number of principles-the two loaves and five fishes. We care not whether a so-called Republican, or Democrat, or Independent, is called to power, so that he be a tried statesman whose reputation for ability, honesty, integrity and patriotism is of infinitely more value to him than mere money or office. But we do want the present Augean stables sent back into retirement. Some of

I not only wish to see that "every laddie has his lassie" and that timid and bashful young gentlemen have the ice broken for them, to the end that neither male nor female "wall-flowers" be obliged to "waste their sweetness on the desert air;" but I also desire that all come in for a share in the gen-

CHICAGO, Sept. 23.—The Times' New Orleans special says the White League have received notice to be ready to spring to arms at an hour's notice, and an attack upon the Kellogg government and United States troops is expected to take place to-day. This is to be done with the purpose of compelling the Federal authorities to declare martial law and establish a military government, and not with the design of obtaining control of the State offices. The failure of the attempt at compromise with the Kellogg government in regard to the management of the election in November is said to be the reason for this new outbreak. The White League does not expect to achieve success, except so far as to compel the establishment of a military government. If this shall be effected the success of the shall be effected the success of the shall be effected the success of the success of the shall be effected to the success of the same of the same of the success of the same fected, the purpose of the rebellion will be accomplished. He declares his belief that the purpose and spirit of those having charge of Demo-cratic organizations in Missouri is to make war upon Union men. He is utterly opposed to the Radical party but wants none of such Democracy as is prevalent. He concludes his letter as follows:

"Above all things, the country needs repose and order, and if the people would seek their true interests they should avoid Radicalism of both extremes. But the Missouri Democracy is drifting into the worst kind of Radicalism. Its doctrines on the currency question leads to repudiation and springs mainly from the fact that the Government bonds were issued to raise means to carry on the war. Its hostility to Union men shows that it still harbors a yearning for revenge, that must inevitably culminate in a looseness or disorder which will paralyze the industry of our state, and drive emigration from its borders. am sure that if the people of Missouri were satisfied that the success of the Democratic Party in the State would cause the canonized bones of the Rebellion to break its cerements, they would have none of it."

DIED.

LOOP. — In Los Angeles, Sept. 22d, Ida C., daughter of John and Marian Chamberlain Loop, in the sixteenth year of her age. In the death of this only and beloved child, the iron has entered deep into the souls of the bereaved parents. Marked as the victim of the fell destroyer, consumption, she was brought to this sunny clime with the faint hope that its balmy influence might arrest, if not counteract, the disease. But in vain; in less than one month all was over, and the loved one slept the peaceful sleep of the just. The darling of her parents and beloved of all who knew her, here and at her former home in Illinois, has gone home to her God and Savior. In the arms she loved so well she passed away, peacefully and calmly; so fitting seemed the end of a like peaceful and quiet life. She had suffered much, as is almost always the lot of the victims of consumption; but she slept quietly at the last, and died without a struggle. One glance fell upon her weeping parents, and her eyes closed on earth, to open again and forever in the life immortal. It seemed as if angels must have stood by, ready to receive so pure a spirit. Brief as had been her stay here, she had attracted to herself by her patient sufferings many a sympathizing heart. Around her old

The Commercial Union and State Investment Insurance Companies paid the amounts of their policies (\$3,000 each) to Messrs. F. Weber & Co. yesterday. The companies have sixty days in which to adjust and pay their losses if they require it, but they have thus promptly settled, without discount for interest or reduction of any kind. Messrs. Weber & Co. are desirous of again starting in the milling business, and will doubtless do so if they can secure the rebuilding of the Stearns or Aliso Mills.

Mr. Johnson's Panorama.

A San Francisco paper has the following concerning the exhibition in that city of Mr. Johnson's panoramic views of Southern California:

Comparatively little is known o Southern California and its genial climate and its manifold resources--outside of its own limits. The general impression has been for a long time that it is an arid, uninviting country, having no flowing streams, almost rainless, incapable of being a large producer of cereals and fruits, and offering no inducements to the settler. James A. Johnson, of Santa Barbara, has conceived the happy idea of disseminating information relative to this section of the State through the medium of the camera and magic lantern, giving a panoramic view of its most attractive localities and interesting features, especially so of Santa Barbara and its surroundings. Some of the views of scenes in Los Angeles county are very faithful. San Diego city and bay are well represent-ed. No doubt this panoramama will the wedding cake, which we shall "drawn over" and wish them much succeed in drawing more attention to "dream over" and wish them much Southern California than any other Joy. means yet adopted for that purpose, resulting in a marked increase in the tickets for the Marston Concerts will influx of population to that part of the State. Mr. Johnson has started for Monday next. Admission tickets to the East and Europe, for which his three concerts, including reserved panorama has been specially prepared | seats have been put at \$2 50.

Common Council Proceedings.

THURSDAY, Sept. 24th, 1874. The Council met at the usual hour with the following members present: Beaudry, Mascarel, Valdez, Work-man, Huber, Gerkins, Chavis and Sabichi. Absent, Dockweiler and De-

The minutes of the previous meeting were read and approved.

The Marshal reported the collection of \$445 for city license tax. Report

placed on file.
The Board of Public Works presented a report with recommendations which were acted upon separately. 1st. That Third street, between Fort and Main be graded and improved in accordance with petition of propertyowners. Adopted.

2d. That obstructions on Turner street be removed by the party who plased them there. Adopted. The City Surveyor submitted speci-

fications for the building of a culvert on Zanja No. 8, across Spring street as ordered at last meeting. Approved and specifications ordered published. A petition from Pedro Billiard was presented praying for a quit-claim deed from the city for a certain piece

The Orizaba will be at Wilmington against granting of said deed were also submitted. Referred to the Committee on Lands in conjunction with the City Attorney. An amendment by Mr. Beaudry to refer the matter to the City Attorney alone was lost for want of a second.

A petition was presented asking that the city purchase a Babcock fire ex-tinguisher, and representing the advantages such a machine would have over any other in the city by reason of its lightness and quick presence at fires as well as obviating the necessity of water. Moved that the petition be referred to the Finance Committee. Amended by Mr. Beaudry that it be referred to the Committee on Fire and

Water. · Amendment carried. A recommendation was presented by the Health Officer that the sidewalk be graded and walk built in front of the property of Mrs. M. Valdez Dassean, No. 11 Spring street. The South, Range 13 West, Southern Pacific Railroad, was on trial in the portion of the sidewalk is a considerable impediment to pedestrians, endangering their life and limb, especially gering their life and limb, especially after dark, and its correction was recommended not only as a sanitary measure but that the law regulating sidewalks be inforced. On motion of Mr. Beaudry referred to the Board of Public Works.

The Health Officer reported that certain nuisances exist on New High street above Turney in Beaudry Ter-

street above Turney in Beaudry Terrace and recommended that a box drain be constructed to remedy the difficulty. Referred to the Board of Public Works.

It was reported that none of the assessments for Main street sewer had been paid by property-owners. Mr. Beaudry moved that a resolution be drafted providing for the collection of assessments by the City Marshal, giving him therefor a commission of one

tal and the bellicose Manuela went away rejoicing.

The that resulted in an acquitation of the columbia would turn away rejoicing.

The that resulted in an acquitation of the columbia would turn of that section of sewer between Arcadia and Commercial street, asking if that portion could be built, provid- to Oregon's rapidly increasing reed the assessments therefor be paid at Coyotes ranch, one-half mile west of once. A lengthy debate ensued, in the new railroad. The land will be which Mr. Mascarel stated that an error had been made in making plans for sewer, and a portion of the property lying on the east side of Main below Commercial cannot be drained by it. Mr. Beaudry thought that the necessary steps had been taken for the building of sewer, and all that re-

mains to be done is to collect assessments at once and proceed to built it. On motion the City Clerk was authorized to issue warrants for the amounts issued against propertyowners for Main street sewer. Beaudry moved that a separate fund be created to be known as the Main Street Sewer Fund and the City Treasurer be instructed to keep a special ac-

count with the same. Carried. The following bills were then presented, and referred to the Finance Committee: Dr. McKee, \$4; Geo. P. McLain, \$10; P. Goodwin & Co., \$10; Yarnell, Caystile & Brown, \$40; Griffith, Lynch & Co., \$27 83; same, \$36 21; same, \$12 94; Wm. An ordinance was submitted and quarters are at Campbell's livery adopted granting a franchire to John G. Downey and others to build a railroad track along Main street from the intersection of Spring to Washington Gardens and thence to the Fair Grounds. Also, from the junction of Main and Spring streets, north to Ar-cadia and further to the Plaza, provided the Spring and Sixth Street Railroad Company will grant the privplished and agreeable as Mr. Saxon. | ilege of running over their track for Work to be commenced within three finished in six months, and the entire

road completed in sixteen months. Mr. Potts, by permission, stated a case to the Council wherein certain property had been sold to pay delinquent taxes on which the assessments had been paid by the owner and receipts taken therefor.

On motion, Messrs. Workman, Huber and Mascarel were appointed a committee to investigate the matter and suggest a way to rectify the error. Mr. Workman called the attention of the Council to a defective bridge in Lovers Lane between the property of the Sisters of Charity and that of Mrs.

Prudhomme. Referred to the Board of Public Works. Other bridges out of repair on Chapparel street, Pico street and others were mentioned and referred to the

same committee. Mr. Huber moved that one thousand feet of assorted lumber be purchased and stored in the jail yard for the use of Captain of chain-gang in repairing and building bridger. Car-

Mr. Beaudry brought up the question whether it is necessary for the city to purchase the canal and reservior ditch and if so, whether such purchase should not be made at once. He moved that the question be referred to the City Attorney for an opinion. The motion failed to secure a second and was lost.

A Babcock Engine Wanted.

The following petition was presented to the Council yesterday and referred to the Committee on Fire and Water. We believe it represents the wishes not only of the signers but a large majority of our citizens:

Los Angeles, Sept. 24th. To the Honorable Mayor and Common Council of the City of Los Angeles — GENTLEMEN: We, the undersigned, respectfully represent to your honorable body the necessity of providing this city at once with some additional means for the extinguishment of fires. As the fire department is organizing at present, we are without adequate security for the protection of our property. In the "Babcock Chemical Engine" the want of water in contain leading in certain localities, which at times has retarded the working of the steamer, is obviated. The engine is light and can be taken rapidly to a fire at a distance from the center of the city, and is ready to do its work

the moment it arrives on the ground. We, therefore, earnestly request your honorable body to purchase a Babcock Engine, satisfied that such action would meet with the unqali-fied approval of all interested in the

welfare of the city.

Any stock upon which this assessment shall remain unpaid on the said 26th day of October 1874, will be delinquent and advertised for sale at public auction; and, unless payment is made before, will be sold on the 21st day of November, 1874, to pay the delinquent assessment, together with cost of advertising and expenses of sale.

C. W. TWISS,

Compton, Los Angeles county, State of Cal-ifornia, Sept. 19, 1874.

THE DELINQUENT LISTS of the various Countles of the State, for the 24th and 25th Fiscal years, (1872-3-1873-4) are now in my hands for collection. Many persons are delinguent for small sums upon personal property, and are urged to examine the rolls in the hands of the Tax Collector of their respective counties and to make immediate paytive counties and to make immediate payment. The law is imperative, that the payment of the State tax for these years must be enforced, and unless voluntary payments are made at once, heavy costs will be incurred by the delinquents,
